**Hawai'i Emergency Management Agency:****FEMA Awards \$3.7 Million to Hawai'i for COVID-19 Response**

FEMA has awarded nearly \$3.7 million to the HI-EMA for expenses incurred from the COVID-19 response. The funding was made available under a presidential disaster declared on April 1, 2020. This expedited award reimburses the 75-percent federal cost share associated with performing emergency protective measures utilizing force account and contract services to protect public health and safety and the purchasing of Personal Protective Equipment (PPE), medical supplies, and the lease of supply storage space. These costs include the labor and contracts to purchase and distribute PPE and supplies, as well as the movement of these supplies and personnel across multiple Hawaii counties medical facilities. HI-EMA Administrator Luke Meyers said, "This funding goes a long way in helping to prepare our State's frontline workers and strengthen our surge capacity should the need arise for this unprecedented pandemic incident. The reimbursement monies can now go to other essential programs to mitigate against a rise in cases should our numbers go up as we slowly open our islands on this current road to economic recovery."

**Department of Public Safety:****PSD Population Report**

From March 2 to June 5 there has been a 699-person decrease in Hawai'i jails. The jail reductions are due to the up-front diversion efforts made by county police departments, PSD's Intake Services Center Division and the State Judiciary. Additional recent reductions are due to the collaborative efforts of the state public defender's office, county prosecutors, the Hawai'i Supreme Court and the Supreme Court appointed Special Master, Judge Dan Foley. There's also been a 91-person reduction in Hawai'i prisons. For latest information:

**Department of the Attorney General:****Encouragement to Get COVID-19 Information From Official Sources**

Law enforcement agencies across the state are reminding Hawai'i residents to only rely on official sources of information for the latest on the COVID-19 pandemic and other issues involving government agencies and their responses. Some social media sites have recently posted false information suggesting that out-of-state individuals are coming to Hawai'i to cause

trouble. Attorney General Clare Connors, the state's chief law enforcement official said, "While social media can be helpful in distributing information broadly, everyone knows there are countless examples of where social media platforms have spread misinformation through false postings. We encourage readers and viewers to be discerning, to rely only on official sources of information and to avoid getting caught up in the dissemination of rumors and/or gossip online.
